

Training Day 18 Daily Dairy

July 4, 2024

- ✚ completed training report
- ✚ started writing research paper
- ✚ analysed various articles and research papers

Tasks Accomplished:

1. Training Report:

- ✚ Completed writing the training report, ensuring all sections were thoroughly covered.
- ✚ Reviewed and finalized the report, making necessary adjustments based on feedback and self-assessment.

2. Research Paper Writing:

- ✚ Began drafting the research paper, focusing on a detailed presentation of methodologies, results, and discussions.
- ✚ Structured the paper to include sections such as Introduction, Methods, Results, Discussion, and Conclusion.

3. Literature Analysis:

- ✚ Analysed various articles and research papers related to LST analysis and environmental studies.
- ✚ Incorporated relevant findings and methodologies from the literature into the research paper to strengthen the study's context and discussion.

Key Learnings:

- ✚ Completing the training report provided a comprehensive summary of the study, useful for both documentation and future reference.
- ✚ Writing a research paper requires meticulous attention to detail and a strong understanding of existing literature to position the study within the broader academic context.

Challenges Faced:

- ✚ Balancing the depth of information while maintaining clarity and conciseness in the research paper.

- ✚ Synthesizing information from various sources to create a cohesive narrative in the literature review section.
